

Standard Drip tape installation machine

Designed to unwind flat disposable sheaths, this small device is adaptable to our unwinders, and is fixed on the upper part of the hitch head.

Can also be adapted to other unwinders of other brands than Jaulent

The reel has an adjustable braking system.

The sheath is guided at the bottom, either by a sheath guide ring or by a burying device.

Option:

Cast iron ploughshare allowing a working depth of burial adjustable from 0 to 30cm

PERFORMANCE TABLE

PERFORMANCE TABLE						
Designation	REF.	COLLECTION				Performance
		Length	Width	Height	Weight	
Hose reel drop by drop	PMB	0,50 m	0,90 m	0,20m	16 Kg	Adaptable on all chassis. Discharges from the flat disposable sheath. Equipped with a brake to limit the decoiling
