

Non contractual document
Do not dump on the public
highway

Treatment products have become RARE AND EXPENSIVE
the workforce ALSO
the plants are EXPENSIVE
water is RARE
cultivation and growth
are therefore more DIFFICULT AND EXPENSIVE

LA SOLUTION
G JAULENT

LE SEMIS DIRECT

ADVANTAGES OF DIRECT SEEDING

- 1 No logistics for transport and handling of plants**
- 2 No stress on the plant due to climatic conditions**
- 3 Cost of cultivation divided by TWO (see more)**
- 4 Cost of qualified personnel significantly reduced: 1 driver and 1 operator are enough (the operator will supply the different parts of the machine with plastic film, drip, insecticide and seeds)**
- 5 Excellent deep and taproot system allowing to overcome certain climatic conditions (drought...)**
- 6 No terracing required**

OUTCOME:
a root system
deep

**MORE THAN 20 YEARS IN OPERATION WITH
PRODUCERS (squash, zucchini, melon)**
